have to do the following. · First, you need to

do a restore on your PC. · Then install the Ilok software. · Once you have the software installed, download the Ilok2 software and install it. · Once the Ilok2 software has finished installing, restart your PC. · At this point, the Ilok2 software should have installed your iLok. · Next, start Pro Tools. · If you are still having problems, contact Ilok support and they will walk you through it.

This should help you, If you're having problems, post your Ilok serial number and let's see if we can help you . May 13, 2015

Found solution to this issue, I used AppSummit Ilok Installer 2 to install iLok, then I used the crack by Lucidriller, although iLok will crack when you launch it for the first time, after that, you will be prompted to activate your iLok (it shows on your desktop) and that's it, if you had any

problems after this you can contact ILOK support to see if your issues have been resolved. I forgot to mention that there is a link here on the comments to a tool that you can use to install iLok but it is not a free version. You can post your ilok serial number and if anyone can help you.
