## What's New In Batch DOC TO HTM Converter?

Batch DOC TO HTM Converter is a straightforward piece of kit designed to turn Microsoft Word files (DOC and DOCX) into HTML format, as the name suggests. It does not include complex features or configuration parameters, making the app suitable for all user groups. Easy install and clear-cut GUI Setting up the tool takes little and effort. When it comes to the interface, Batch DOC TO HTM Converter opts for a clean look and no striking visual elements that would distract users from the conversion job. As the app's name implies, batch processing is supported. Actually, the whole point of the tool is to facilitate batch operations for DOC-to-HTML conversions, in order to reduce the overall task time. Intuitive options Documents can be imported using either the file browser, folder view or drag-and-drop support. Directories can be selected as well, with or without their subfolders. Additionally, Batch DOC TO HTM Converter implements a search function for automatically selecting all supported files from a given directory. The output directory can be opened from the interface too. Program settings can only be modified by advanced users, since only command-line parameters are supported. The project can be saved to file, in order to resume it at a later time. Performance and conclusion Batch DOC TO HTM Converter is very responsive to commands and carries out conversion jobs quickly while remaining light on the system resources. We have not come across any issues throughout our evaluation, since the tool did not hang, crash or pop up error messages. On the other hand, its skill set does not account for the very high price, especially considering that Microsoft Word must be installed in order to use Batch DOC TO HTM Converter, and that similar applications offer the same functionality for free.
