KeyMacro is the best general keyboard short-cut manager and controller in the world! KeyMacro enables you to add your favorite keyboard shortcuts for up to 19.2 million+ websites. You can even combine them with mouse gestures to reach your targets in a much faster and more efficient way. With KeyMacro, you can do more than ever. Because KeyMacro gives you a lot more flexibility and advanced control over your keyboard shortcuts. It can also automate the repetitive tasks, add macros to launch certain apps, and monitor your settings. KeyMacro's superb features: ● KeyMacro supports 3 types of keys: physical, virtual, and USB. ● Control multiple programs with a single shortcut. ● Add as many shortcut keys as you want to it. ● Control when to run your macros. ● Add your own shortcuts to KeyMacro's 20+ categories, including web browser, chat clients, documents, spreadsheets, and more. ● Get rid of the duplicate commands in your keyboard. ● Monitor your keyboard and software settings. ● Automatically detect programs to be launched and create a shortcut for them. ● Make your own keyboard shortcut as a command, which opens the application, adds a tab, and starts the program in a new window. ● Add your favorite shortcut to the Start menu and add a context menu for your favorite apps. ● Generate a unique hexadecimal number for every shortcut to identify it, and to create a shortcut to your desired URL. ● The best part of all, KeyMacro is 100% free! [KeyMacro Features](#)

1. Automate Your Daily Tasks When it comes to short cuts, you may feel overwhelmed. Fortunately, KeyMacro can help you automate your workflow. You can add shortcut keys to launch your favorite apps, and start them with a single click.

2. Improve Workflow KeyMacro can give you an edge to simplify your work flow. You can make your web browser, chat clients, and documents more accessible by adding shortcuts to them. For example, you can add a shortcut to your favorite website. Then, you can just press a single key combination to open that site in your default browser.

3. Have More Control You can add multiple shortcut keys to the same category. Then, you can customize them to run your favorite programs. For example, you can add shortcuts to your favorite Google Apps (Chrome, Gmail, Doc 77a5ca646e

4D Lights is a professional looking flash game for Windows 8 and Windows 7. This game has been updated very recently. 4D lights animation is very popular in the web. The main objective of this flash game is to create a 4D city scene. You have to have a big garage with several 4D lights. As you are making the lights, you must take into account that they are moving together so you have to work together with others in order to achieve high-quality graphics. It's fun and easy to play. You can create 4D light scenes very quickly. Now I am going to give you some details about the game. Controls: In order to play, you just need to click the "Next" button at the bottom right corner. In order to pause, you just need to click the "Pause" button on the top right corner. Fun Details: This flash game is about making the 4D light scenes. So, you should select a city scene that has a lot of rooms. Each room will have several 4D lights. You can have more 4D lights if you wish. So, you should try to make more rooms. You can use 3 different kinds of 4D lights in this flash game. They are jiglight, fluorescent, and flicker. Description: 4D Parallax is a new flash game that looks like a delightful forest. It is the place where you must collect items, catch bugs, and also defeat monsters in order to collect more items. It is a very simple flash game, but it has great graphics. You can easily play this flash game by using the mouse. So, you should not make too many moves at the beginning. As I mentioned before, this flash game is about collecting items. So, you can begin collecting items by clicking the "Open" button in the upper right corner. Next, you have to travel all over the forest. It is not easy because you have to explore the forest in order to find items, complete the tasks, and defeat the monsters. In the middle of the game, you have to catch bugs in order to make money and buy more items. You can defeat the monsters by hitting them in the face. So, you have to click the face of the monster to defeat it. In the end, the forest has many items. You must collect them all in order to complete the game. Fun
