PowerCAD is a powerful and versatile application that was designed by Art Of Animation to create both comic strips and long format graphic presentations. While it has not been updated since last year, it still performs extremely well. It exports to all the common graphic formats, including EPS, PNG, JPG, BMP, GIF, TIF, EMF, EPS, and PCX. The software is known for being able to accept WYSIWYG (what you see is what you get) drawing information, text, objects, and symbols from a variety of different programs such as Photoshop, Illustrator, CorelDraw, and QuarkXPress, and display them on paper, in a printer-ready PDF document, or in a variety of other formats. It allows users to create comic strip, poster, portfolio, and catalog layouts with ease. It also supports animation. Besides the comic strip features, PowerCAD also enables users to layout long format graphic presentations such as posters, presentation templates, and catalog layouts. It offers powerful features such as multi-page insertion, layer editing, text types, and advanced symbol and object support. They can be printed on paper or any other type of medium, such as label paper, transparencies, or offset film. This makes it extremely useful for creating marketing, promotional, and educational materials.
