Any ads that might appear in this widget come from Google AdSense and are not endorsed or approved by us.Q: Do we need ReCAPTCHA on login page Do we need the recaptcha on login pages? We are showing the recaptcha on every page, but not on login pages. A: Recaptcha is to stop spammers. It is not used for to stop unwanted behaviour such as attackers, hackers, spammers, phone phishers, and social engineers. ReCAPTCHA and the Google Privacy Policy You may obtain the ReCAPTCHA API from The ReCAPTCHA API is subject to the Google Privacy Policy, including the Google Data Protection Policies at You are not required to use the ReCAPTCHA to preserve the privacy of your users. However, you may use the ReCAPTCHA for purposes of protecting the privacy of your users; for example: Preventing automated sign-ins via a CAPTCHA Protecting against a phishing attack by requiring humans to enter information Protecting against a social engineering attack by requiring humans to enter information On the other hand, by using ReCAPTCHA, you are agreeing to be bound by the terms and conditions set forth by Google Inc. You should review the ReCAPTCHA Product TOS Agreement. Limitation of liability To the extent permitted by applicable law, we shall have no liability or responsibility to you or anyone else arising out of or in connection with your use of the ReCAPTCHA, the ReCAPTCHA API, or any other products or services that we offer. Excerpt from As @carlos mentioned in the comments below, using the recaptcha might be useful for specific login pages, and an attacker may bypass the captcha code and the password box. According to your scenario, ReCAPTCHA may not be suitable. Edit: Here's a good response to someone asking about recaptcha when using single-page applications: 09e8f5149f

Medh?tu - Dropdown list of all STEREO LOGIC (radio) stations in North America with national and local traffic information, such as traffic conditions, road closures, weather forecasts, and live traffic reports from SATELLITE-OPERATED stations. Package file - Medh?tu (8.0 MB) Note : For best performance, this application should be run from a USB flash memory drive. It is recommended that you allocate at least 2 GB of free space on your USB memory stick. New features in LaptopPortal 6.0.0.43: •Now, if you are having problems with your Micromax A76 laptop that while rendering videos from Cnet's website, or YouTube, you can turn off the wireless mode and press the power button at the same time to force-off the laptop. This won't break the connection to the internet. Pressing the power button alone can cause the laptop to freeze and it won't let you continue using Internet. I have been experiencing this for quite some time. Just solving this issue has been a great relief. •CNET has been my number one source of information for PC's and Laptops. It is always up to date with the latest software releases and very helpful in using it. •Cnet's website is one of my favorite websites. Simplisafe Remote App 1.2.0.0 - With Simplisafe Remote App, you can control your connected SimpliSafe and other secured devices from anywhere as long as you have an internet connection. You can lock/unlock the door, turn on/off the fan, smoke detector, and even lock and unlock the windows. SimpleSMS Server 0.9.0 - SimpleSMS Server is a solution to allow the end user to send SMS to anyone quickly and easily. You do not have to register with the service, nor do you need to download any software for your PC. The app does all the hard work for you. HONEYCOMB WEATHER for Windows Phone 8 - HONEYCOMB WEATHER for Windows Phone 8 is a FREE weather app that provides you with the most accurate, friendly and quick weather information. You can have an overview of the whole world at a glance, choose to see the weather at a given location, or get detailed and specific information. SimplePHPExcel Spreadsheet 0.9.6 - The SimplePHPEx

What's New In?

Compatible with Windows 9X/Me/2000/XP/Vista/7/8/10. License: Freeware, Shareware or Buy it. Compatible with Windows 8.1 or 7 Duration: 2.3 MB Download: MarinaFM 88.8 Radio Player I'm Gonna Be (500 Miles) In the middle of winter, your dog has a great deal of energy and a yearning to run and play outdoors. Your dog needs a brisk morning or afternoon walk to help him stay healthy, active and focused. This will be your dog's 500th mile in his training as a Certified Dog Behavior Consultant (CDBC). You are one of many lucky owners who helped him stay in shape through tracking and conditioning. Thank you for supporting and caring for your dog and the wildlife and plants of Wisconsin. Q: Disable the commands on android app until clicked on menu item on screen I am working on an android app which have multiple menu items on it, in case the user dont want to access particular menu items and just wants to exit the app then i need to disable the accessibility features for the app until user clicks on those menu items which are listed on screen. I have gone through the different site on the internet but most of them are not helping me much. In brief how can i disable all commands and or functions of the app which are listed on screen A: You can use an ActivityGroup. You should start your activity group in onCreate method, and launch your child activities in onPause. activity group sample how to launch children in onResume method BTW, good man to google. A world free of spam - jfarmer ===== jrockway _one of the principles of John Law's Conquered Alliance was "My absence is your presence"._ Oh, wait... ----- gaius Spam is more than just money spam. Spam invites a complex culture, like a dystopia of spammer arguments and algorithms, and like all ideologies it becomes self-perpetuating. Show HN: Microgram - Dedicated Message Board - absconditus
