Whether publishing a Web page, downloading digital images, music, and software or transferring large files between your home and office, Simple FTP Client will get your job done quickly and easily, even if you are a newbie. Why FTP? You can quickly and easily send or receive data files and programs from anywhere in the world. With anonymous FTP, you can easily obtain free and shareware software for virtually any computer system as well as other kinds of computer files such as astronomy images, sound bites from TV shows, books that are no longer copyrighted and FAQs. //Introduction Simple FTP Client is a free ftp software client with a simple interface that helps you easily download and upload files to a web server. Simple FTP Client is an Discover the brilliant history of this hidden Viking treasure, dating back to the 11th century. The Viking Mothstone is a platinum, mosaic casket, polished and decorated with beautiful images and symbols. This must be seen to be believed. We have two such beautifully decorated, and very rare, caskets, one of them being in our gallery. Design, like art, is abstract. Abstract art is produced by people who are trying to depict an abstract concept, but are just missing the tools to produce the intended effect. Abstract art produces emotion and good design is no different. Where does good design come from? Designing is an innate skill that human beings develop in their early childhood. The design code, or the design matrix, is encoded in our DNA and every day during the first few years we learn to design and master the design principles. What are design principles? Every design principle provides a road map for designing, which enables us to choose the right methods and tools for achieving a design objective. A design principle also allows us to get a good grasp on our understanding of the nature of design. Every human being has a design principle. It is born in the design code of each human being and is shaped by our own personal experiences. The design principle is rooted in our personal mind-body connection and the events and circumstances which have occurred in our lifetime. Design principles are:
