Category:Animation software . As we just celebrated the huge milestone of 100 million Powtoons created, we thought now would be the perfect time to... to... to what? To talk about how we built Powtoon. It was pretty exciting. At the very beginning we were very inexperienced. We were not experts in animation and we were not experts in working with text. We didn't know anything about computers at all. How did we get started? We just did what we liked. We knew we wanted to create fun games. Our friends we found on YouTube gave us some great links to programs we could use.
