But the best part of the festival is its newness. Premiere Week is a chance to see unscreened material from the festival's newbies in competition with the usual suspects at the Festival Theatre. That makes it new… Joe Neumaier at the Hollywood Reporter: Stars and moments are starting to jell for this year's Sundance. The list of the most buzzed-about movies and TV shows include Rachel Weisz's star-making turn as a teacher in "The Deep Blue Sea," Anders Tamte's "Afterschool," the black comedy "The Layover," the U.S. debut of Cambodia director Jean-Jacques Annaud's horror feature "The Invisible" and the return to screentime of "30 Rock" star Tracy

Morgan.... Mia Vissi at the LA Times: As thousands of movie lovers flock to Park City, Utah,

System Requirements:

What are your system requirements? We can not provide a list of system requirements because this would be based on data from an infinite number of different hardware configurations, operating systems, and even video cards which are being used by the visitor. Every visitor would have different requirements for the product you see here, so please visit the "Technical Info" link above to see what you can expect. What Operating Systems are Supported? We've tested our game on both Windows 7 and Windows 8, with very positive results. We're using Windows 7 for all of our actual game development
