

Professional Dead Wooding Services Dorset

Dead wood is wood which has become dysfunctional and subsequently all leaf cover has gone, leaving it brittle and weak with the potential to cause harm to either person or property. If a tree owner were looking for deadwood from ground level they would see long sections of branches which have no leaves on or, depending on season, have no bud coverage...plain, 'dead' looking branches. Ross Giles Tree Surgery offers [Professional Dead Wooding Services Dorset](#), there team will locate all deadwood and remove it back to the tree's suitable growth points.
