the new autodesk exchange solution: the app store for autodesk software enables customers to browse, select and download new applications and extensions that will work on their desktop and mobile platforms. using the new app store,

customers can access online versions of autocad, autocad lt and revit with no need to download software directly from autodesk.com. an extensive set of autodesk exchange-compatible tools for autocad, autocad lt, revit, and many other applications, provide a

better way to design and experience the benefits of autodesk software. all autocad extensions available to windows users are now available to mac users as well. the extensions available for mac users include: customized hashes for generating config files, autocad add-ins, autocad plugin packs, autocad

python script editor, and autocad windows plugins. you can access to the "help" function from the application main menu, or from the "help" button on the right side of your toolbar. you can also access the "help" function from any menu or toolbar. see the user's guide for more help. this add-on is

essentially an accelerated c++ compiler that offers performance gains for 3d applications and reduces file size during the build process. also called a "linking" compiler, c++link allows you to link (or interface) your c++ applications with the draw, autocad, and designcenter

components. it is included in autocad It 10.0 or later, but requires a software licensing key from autodesk. in this app, you can choose the visual styles (known as styles) as you design or view. styles are used to view your drawing at different scales and also to interpret points,

dimensions, and other drawing elements. if you print your drawing, styles are used to control the look of your print.
