

Tumbler FREEZE™ Cooling Cup – Stay Hydrated on The Go

People who carry beverages like Coffee or Juices are oftentimes heard complaining about lukewarm drinks. This happens when you carry your drink around for an extended period of time, and the shift in temperature can completely destroy the taste of your drink.

If you want to regulate the temperature of your drink, you should keep it in a [Tumbler FREEZE™ Cooling Cup](#) and enjoy your drinks at optimal temperature.

Travel Friendly

With Tumbler FREEZE™ Cooling Cup, you can travel around for long periods of time and still sip on your refreshing cold juice. The excellent design of this cup helps if you are traveling around, as the comfortable grip of the silicone band makes it easy to hold it for a prolonged period of time.

The Tumbler FREEZE™ Cooling Cup also comes with a lid and a straw which allows you to sip on the go.

Regulates Temperature

You no longer have to worry about the bland taste of your juice when it reaches room temperature, as this Tumbler FREEZE™ Cooling Cup will ensure that your cold Coffee or Juice stays cold even when you have let it out for a long period of time.

If you like to go to beaches, you can leave it out on the sunny beach and still come back hours later to enjoy a chilled drink. In the winter, you can pour in some warm coffee and let the magic gel do its work to keep your drink warm.
