# THE ASSETS ADVISORS

I'm Fawzi Hamze, CEO and founder of The Assets Advisors (We are also Luxury's Partners Too!). With seven years of successful experience in Dubai luxury real estate, I welcome all high-net-worth individuals (HNWIs) interested in our many luxury properties in the tax haven city of Dubai.

I started my career in private banking, a path that opened doors in assets, investments, and wealth management. You've heard of Emaar Developments — they are the developers behind the Burj Khalifa and other select properties in Dubai. I collaborated with EMAAR during my transition into luxury real estate.

With a robust background in banking and high-profile development, I have the hard skills necessary to finish deals, the acumen to spot opportunities, and the scope to accommodate HNWIs on any deal, from one-off purchases to investments in the high eight figures.

As the CEO and founder of The Assets Advisors, I take a growth-minded approach to real estate. My company works with luxury properties in elite locations throughout Dubai, including downtown and waterfront properties. We also work with fellow entrepreneurs, investors, and HNWIs.

## Why Dubai?

In recent years, Dubai has become one of the most sought-after destinations for property investment. The city offers a high standard of living, world-class amenities, and a stable political environment—all factors that contribute to its popularity among investors.

But what makes Dubai particularly attractive to crypto investors is its stance on cryptocurrency. The city is welcoming of digital currencies, and has even created its own regulatory framework for them. This makes it an ideal destination for those looking to invest and buy with crypto.

## Get your property documents in record time

If you're looking for real estate companies that accept cryptocurrency in buying property with bitcoin or Ethereum and other cryptocurrencies, you're in for a treat. Not only can you get your hands on some sweet real estate deals, but you can also get your documents in 30 minutes or less. That's right - with crypto, you can speed up the process of purchasing property and get your documents fast.
